JCISFA
Joint Center for International Security Force Assistance

JCISFA Background

- **General perception of disconnected foreign security force efforts training across USG**
- **SECDEF directed CJCS consider creating a center to institutionalize security force advising and training lessons**
- **VCJCS recommended SECDEF stand up JCISFA under CAC Commander**
- **Proposed charter is with the OSD Staff en route to SECDEF - - anticipate approval end March ’06.**

JCISFA Mission & Tasks

"The Joint Center for International Security Force Assistance (JCISFA) captures and analyzes security force assistance lessons from contemporary operations in order to advise COCOMs and Services on appropriate doctrine, practices and proven Tactics, Techniques, and Procedures (TTPs) to efficiently prepare for and conduct security force assistance missions."

Key Tasks:

- ***Collect & archive data*** **to provide a broad base of observations, insights, and lessons learned from the contemporary operating environment - - collection both passive and active**
- ***Analyze data*** **to identify operational trends and best practices in the application of doctrine and TTPs**
- ***Develop products*** **tailored to meet the needs of service and JIIM customers**
- ***Advise/train customers*** **by delivering/presenting tailored products and packages for integration in their security assistance plans and strategies**

Initial Operational Capability Summer '06

DoD's center for analysis, development, and integration of security assistance related observations, insights, and lessons learned.

Full Operational Capability End of Year '06

The "How" of JCISFA Mission Accomplishment

Observations, Insights, Lessons Learned Integration

OIL Collection

- Passive Collection
- Active Collection
- Web Managed Collection

OIL Analysis

Filtration

- Collation
- Correlation
- Analysis
- Trends
- Best Practices
- Product Development

OIL Integration

Dissemination Vehicles

PASSIVE

- JCISFA Searchable Database
- General Interest LLs / TTPs Posted to Web

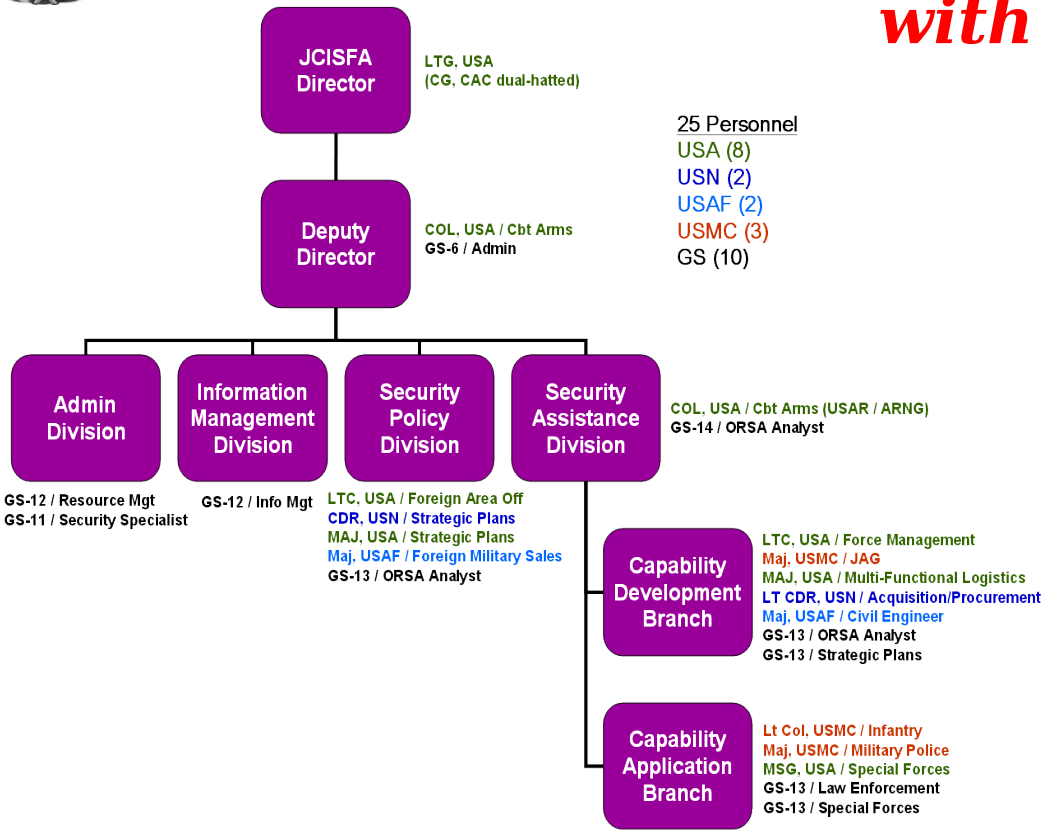
ACTIVE

- Guided Web Enabled Discussion
- Customer Tailored Products/Packa
- USG/INT'I/ COCOM/Svc Advisory Team Visits

FEEDBACK MECHANISM

JCISFA
Joint Center for International Security Force Assistance

Organizational Design
with Key Division / Branch Functions



General: Broadly, the JCISFA mission is to conduct analysis and assistance with the functions of ***organizing***, ***training***, ***equipping***, and ***advising*** foreign security forces, and ***rebuilding*** *supporting infrastructure* (both institutional and physical). The JCISFA will conduct coordination and advisory assistance with a variety of US and foreign agencies (both political and military) in executing this mission.

Security Policy Division: Principal function: ***advising***. Focuses on the strategic level, coordinating with and providing assistance to USG and foreign government agencies principally in the areas of policy, resourcing, and strategic communications.

Security Assistance Division: Principal functions: *all*. Focuses on theater strategic, and more specifically, operational level; coordinates with and provides assistance to COCOMs, Service Component Commands, and foreign government agencies and security forces.

Capability Development Branch: Principal functions: ***organizing***, ***equipping***, and ***rebuilding***.

Capability Application Branch: Principal functions: ***training*** and ***advising***.

Developmental Tasks - - Next Steps

- **Develop operational / technical concept in detail**
  - **Consider in light of any broader Service & Joint L2I efforts**
- **Focus organization on achievable results**
  - **ID "value-added HPTs" over next 12 – 18 months; prioritize operational efforts accordingly**
- **Develop contractor support concept**
  - **Required support to meet IOC / FOC timeline**
